Product Highlights

Performance for Maximum Productivity

With full-performance 12th Gen Intel® Core™ processor options, the Portégé X40-K benefits from the massive performance boost and enhanced efficiency afforded by Intel's all-new hybrid architecture. Configurable with 12 core CPUs, up to 64GB of memory and reinforced with up to 1TB ultra-fast PCIe Gen4 SSD storage, Wi-Fi 6 and Thunderbolt™ 4, the Portégé X40-K delivers amazing performance.

Connect at a New Level

Beyond its ultrafast Thunderbolt™ 4 ports, the Portégé X40-K features a mix of full-size ports, including HDMI®, USB-A (with Sleep & Charge) and Gigabit LAN for seamless, adapter-free wired connectivity. To maximize the benefits of Thunderbolt™ 4, Dynabook offers docking solutions that seamlessly connect up to four external displays, as well as a variety of other USB and USB-C® accessories with a single cable connection.

Premium Inside and Out

Featuring a new, compact aluminium chassis the Portégé X40-K is the perfect mix of style, form and function. Housing a vibrant, edge-to-edge 14-inch IPS or multi-touch display, premium backlit keyboard and multi-touch ClickPad embedded into a comfortable aluminium palm rest, the Portégé X40-K exudes quality craftsmanship.

Security Taken Seriously

The Portégé X40-K is among the most secure Windows PCs in the world. Featuring a secure mix of hardware, firmware, software and identity protection technologies, it is suitable for mission critical users in even the most data-sensitive industries. Dynabook writes its own BIOS, providing an incredibly secure foundation. Further bolstering security, this laptop features face and fingerprint biometric recognition options and an integrated webcam privacy shutter.

A Lasting Experience

The Portégé X40-K was designed to provide years of worry-free operation in even the most gruelling work environments. Engineered and tested to MIL-STD-810H standards for endurance and durability, its ultra-durable aluminium chassis is tough, stylish and helps defend against accidental damage.

NEW AI Enhancement

AI-Enhanced Camera Features

Fostering a collaborative workspace, Dynabook Online Meeting Assist utilizes AI to ensure faces are bright and visible in a wide spectrum of lighting conditions, blur backgrounds and automatically keep the users face centered in frame. Since these enhancements are built into our software, users can easily turn on and off these features with a quick hotkey with any video conference software.

NEW AI Enhancement

AI Noise Reduction

The 360-degree dual-array microphones allow voices to be picked up omnidirectionally with equal gain from all directions giving the user the ability to roam freely around a room or to serve as the hub for multi-person conference calls. Improving overall call quality, the AI Noise Reduction isolates and filters out background noises at near and far ends of calls to ensure participants can be heard clearly and effortlessly.

Even Greater Productivity and Efficiency

With more efficient hardware, including new 12th Gen Intel® Core™ processors, the Portégé X40-K comes with a 53Wh battery, delivering hours of unplugged performance for unhindered productivity on the go. When not in use, Sleep & Charge technology keeps a USB port powered, allowing the laptop to charge a smartphone and other accessories.
